

To whom it may concern17 August 2011
Our ref.: JEHS**SELCO A/S announces acquisition by Littelfuse Inc.**

On 3rd of August 2011 SELCO A/S was acquired by the Littelfuse Inc., a leading global manufacturer of circuit protection components and protective relays.

SELCO will become part of the Littelfuse Startco protection relay business based in Canada.

SELCO will continue all operations in Roskilde Denmark, with the same management. SELCO will also keep the same global network of agents and distributors.

Both companies will be working together with their sales resources to bring their products to a broader market segment.

SELCO's *Arc protection, Generator controls and Process alarm products* complement the Littelfuse Startco portfolio of products. "We believe that this is a great partnership. We think that the combination with Littelfuse will allow us to bring new products and capabilities to our customers and enable new opportunities to grow our business" said Jens Hammer Sørensen Managing Director.

"The acquisition of SELCO is a significant step in our strategy to expand our protection relay business", said Dan Stanek, General Manager of Littelfuse Startco. "They also provide a strong base for further expansion of our protection business and broaden our capabilities to help customers reduce electrical hazards. SELCO is an excellent fit with Littelfuse."

About SELCO A/S

Since its founding in 1984, SELCO has been a pioneer and leader in the development of extremely reliable electrical products for the marine industry and has earned a reputation for quality and value. SELCO collaborated on many basic industry standards and today is a preferred supplier for many of the world's leading ship builders and land-based power generation operations. SELCO products are available as standard or custom designed products to meet customer needs. SELCO is ISO 9001-certified. The company is headquartered in Roskilde, Denmark with sales locations in the Middle East, India and China.

About Littelfuse

Littelfuse Inc. is the worldwide leader in circuit protection with 2010 revenues of \$608 million. Founded in 1927, Littelfuse offers the industry's broadest and deepest portfolio of circuit protection products and solutions. Backed by industry-leading technical support, design and manufacturing expertise, Littelfuse devices protect products in virtually every market that uses electrical energy, from consumer electronics to automobiles to industrial equipment. In addition to its Chicago, Illinois, world headquarters, Littelfuse has more than 20 sales, distribution, manufacturing and engineering facilities in the Americas, Europe and Asia.

Technologies offered by Littelfuse include Fuses; Gas Discharge Tubes (GDTs); Positive Temperature Coefficient Devices (PTCs); Protection Relays; PulseGuard® ESD Suppressors; SIDACtor® Devices; TVS Diode Arrays (SPA™ Family of Products); Switching Thyristors; TVS Diodes and Varistors. The company also offers a comprehensive line of highly reliable Electromechanical and Electronic Switch and Control Devices for commercial and specialty vehicles, as well as underground Power Distribution Centers for safe control and distribution of electricity in the mining industry.

With best regards

SELCO A/S
