

Confirmation of Product Type Approval 31/AUG/2010

Please refer to the "Service Restrictions" shown below to determine if Unit Certification is required for this product.

This is to certify that, pursuant to the Rules of the American Bureau of Shipping (ABS), the manufacturer of the below listed product held a valid Manufacturing Assessment (MA) with expiration date of 21/JAN/2012. The continued validity of the Manufacturing Assessment is dependent on completion of satisfactory audits as required by the ABS Rules.

And; a Product Design Assessment (PDA) valid until 12/AUG/2015 subject to continued compliance with the Rules or standards used in the evaluation of the product.

The above entitle the product to be called Product Type Approved.

The Product Design Assessment is valid for products intended for use on ABS classed vessels, MODUs or facilities which are in existence or under contract for construction on the date of the ABS Rules used to evaluate the Product.

ABS makes no representations regarding Type Approval of the Product for use on vessels, MODUs or facilities built after the date of the ABS Rules used for this evaluation.

Due to wide variety of specifications used in the products ABS has evaluated for Type Approval, it is part of our contract that; whether the standard is an ABS Rule or a non-ABS Rule, the Client has full responsibility for continued compliance with the standard.

SELCO A/S

Model Name(s): C6200 Generator Controller Module (phase/phase) , C6200 FlexGen Basic (3-phases), C6200 FlexGen Compact (3-phases), C6200 FlexGen Advance (3-phases) & C6250 User Interface Module

Presented to:

SELCO A/S
BETONVEJ 10
ROSKILDE
Denmark

Intended Service:	To be used on marine vessels and offshore units.
Description:	Generator Controllers with phase/phase and 3-phase protection functions.
Ratings:	See data sheet attached
Service Restrictions:	Not applicable
Comments:	Each application and configuration is to be specifically approved as part of the switchboard cabinet.
Notes / Documentation:	DELTA test report No. DANAK-1910203; C6200 Data Sheet, Function Description, Installation Manual, Configuration Manual & C6250 User Manual.
Term of Validity:	This product/model is covered under Product Design Assessment (PDA) Certificate # 08-LD368550-1-PDA, dated 13/Aug/2010. This PDA Certificate remains valid until 12/Aug/2015 or until the Rules or specifications used in the assessment are revised (whichever occurs first).
ABS Rules:	2010 Steel Vessel Rules 1-1-4/7.7 and 4-9-7/13.1
National Standards:	
International Standards:	IEC 60945 Ed.4, IACS E10
Government Authority:	
EUMED:	

Others:

Model Certificate	Model Certificate No	Issue Date	Expiry Date
PDA	08-LD368550-1-PDA	13/AUG/2010	12/AUG/2015

ABS Programs

ABS has used due diligence in the preparation of this certificate and it represents the information on the product in the ABS Records as of the date and time the certificate was printed. Type Approval requires Drawing Assessment, Prototype Testing and assessment of the manufacturer's quality assurance and quality control arrangements. Limited circumstances may allow only Prototype Testing to satisfy Type Approval. The approvals of Drawings and Products remain valid as long as the ABS Rule, to which they were assessed, remains valid. ABS cautions manufacturers to review and maintain compliance with all other specifications to which the product may have been assessed. Further, unless it is specifically indicated in the description of the product; Type Approval does not necessarily waive witnessed inspection or survey procedures (where otherwise required) for products to be used in a vessel, MODU or facility intended to be ABS classed or that is presently in class with ABS. Questions regarding the validity of ABS Rules or the need for supplemental testing or inspection of such products should, in all cases, be addressed to ABS.
